Screenshot of crash overlay

When the user clicks any of the pagination buttons (“Show 10”, “Show 25”, or “Show 50”), the page becomes unresponsive and a crash message appears. The interface cannot be used until the page is refreshed.

Steps to Reproduce:

Open <https://academybugs.com/store>

Scroll to the pagination section on the page

https://bugzilla52.allizub.org/show\_bug.cgi?id=1345

1/2

Click “Show 10”, “Show 25”, or “Show 50”

Wait approximately 5 seconds

Actual Result:

A crash overlay is displayed and the page freezes. The user can no longer interact with the page.

Expected Result:

The selected number of products (10, 25, or 50) should be shown without freezing the page, and the site should remain fully functional.

Starting bug workflow. Proceeding with investigation and reproduction.

[ahm55566ahm@GMAIL.COM](mailto:ahm55566ahm@GMAIL.COM) 2025-11-16 16:18:12 UTC [Comment 2](#) [[reply](#)] [[–](#)]

Developer fix applied. Pagination freeze issue marked as resolved (fixed).

[ahm55566ahm@GMAIL.COM](mailto:ahm55566ahm@GMAIL.COM) 2025-11-16 16:21:15 UTC [Comment 3](#) [[reply](#)] [[–](#)]

Fix verified. Pagination buttons now work without freezing the page.
